

Dear King Man,

How are you? I am Arthur, you can call me egg yolk. I'm sorry but I was busy with my tests and so I did not have time to write back.

I'm ten years old and like you, I like sports. I like drawing houses because I would like to be an architect in the future. I play the piano, and I will have a piano examination next year, and at a piano competition, I received the first prize. I like eating rice, noodles, vegetables and chicken. I have a brother who is twelve years old and a sister who is six years old, they are both really nice.

P.S. I think your name is really cool.
