When I Grow Up ...

by Chong Tsz Yu Emma 6B

I want to be a nurse when I grow up because it is a meaningful and challenging job. If I become a nurse, I will teach patients and their families how to deal with illness or injury. I will also operate and monitor medical equipment.

You can't be a nurse unless you are nice and cheerful. The friendly attitude of nurses often brings comfort to patients. Nurses should have a positive attitude so that the patients can have support from them.

I really want to be a nurse. From now on, I will read more medical books. I will practise my spoken Cantonese, English and Putonghua more because I need to speak to patients from different countries. I am sure I will be a good nurse when I grow up.

Dear Enormous Crocodile,

How are you? Thank you for your invitation. I will not go to your Children Flesh Tasting Party. Can you stop eating children? You can just drink water and eat fruit every day.

Firstly, I believe that children are bad for your health. It is because if they are sick, you will be sick. Moreover, COVID-19 is serious. If you eat them, you may have COVID-19 too. However, nuts do not have COVID-19!!! Would you like to try some?

Secondly, I am sure that children are not delicious as their blood tastes like chili. Also, their bones are stiff and tasteless. Their skin is hard and rough.

Finally, if you want to live longer, have a girlfriend and get married then. Let her take care of your health. Moreover, you should not eat children anymore!

Your friend,
Annoying Monkey

Clever Trick Number 5 of the Enormous Crocodile

By Tsang Shun Ho Michael 6D

One day, the Enormous Crocodile went to McDonald's. It is in Lok Fu. Before the children came, he wore yellow clothes. He made himself look like Uncle McDonald.

Soon, three children came. They were Michael, Max and Kelly. They felt happy to see Uncle McDonald because they thought he would give a gift to them.

At that moment, the Enormous Crocodile was very happy because the children ran towards him. Suddenly, Max saw the Enormous Crocodile's green skin, his big mouth and his long tail. He knew this Uncle McDonald was pretended by the Enormous Crocodile.

"Don't run towards him! He is the Enormous Crocodile!" yelled Max. He called the police immediately.

At last, the police arrived. They caught the Enormous Crocodile. The Enormous Crocodile needed to stay in the zoo forever.

A Thank You Letter to a Friend

by Mak Tsz Kit Jason 6A

Dear Rocky,

I would like to say thank you to you for your kindness. You are one of my best friends in my school. I like to be with you because you tell me a lot of old stories.

I enjoyed the time with you. We had a wonderful time in the past two years. You taught me how to do the difficult homework. I have improved a lot. Moreover, you helped me repair my computer during lessons.

You are a caring person. I remembered that you looked after me when I got hurt in the camp. You showed your kindness to me. The next day, you helped me pack my things when we left the campsite.

I will miss you and study hard in secondary school. I will remember your kindness. I will remember our wonderful time in primary school. I wish you good health and all the best in the future.

Keep in touch. Miss you!

Yours sincerely,
Jason Mak

Thank You Letter

Dear Katy,

I would like to thank you for your love. You are my best friend. I love you very much.

You are a cheerful and generous friend. You always spread a smile over your face. You are always happy. You always share snacks with me. You have filled my life with happiness. You are also humorous. You always tell jokes to me and make me smile.

I remember once I got low marks in the exam, you picked me up and supported me. You gave me a little gift and comforted me. I kept the gift until now. I will never throw it away and never forget it.

I promise you I will not be sad again. I will never forget you. I wish you all the best.

I miss you so much. Keep in touch.

Love,
Rachel

An Accident

Liu Man Lee Dora 6B

Last week, my friend, Daisy called and told me that she would be away from Hong Kong for a few days. She begged me to help her take care of her pot plant. Daisy asked, "Can you help me take care of my pot plant?" I said, "No problem!" I felt confident because I thought watering was a very simple task.

Then I took the pot plant from Daisy. A plant needs enough sunlight and proper amount of water for it to grow up, so I put the plant on the balcony and I watered the plant every day. I thought the little flower was growing better under my good care.

One night, when I was playing TV games in the living room, my cat ran on the balcony and knocked over the pot plant. The pot plant was broken by my cat! I felt scared because my cat made the trouble!

I didn't do anything to the cat, I just told it to go away because I didn't want it to get hurt. Then I checked the flower and found that it was fine. However, the pot was broken, so I bought a new pot and fixed the plant. I gave the pot plant back to Daisy when she came back. I did not tell her anything about this accident. From this event, I have learnt that I should not let my cat go to the balcony.

A Thank You Letter to My Teacher

Jan Chung Yin Jeffrey 6C

Dear Miss Lau,

I would like to thank you for your teaching. You are my favourite teacher at school. You are always willing to teach me. You taught me Chinese and General Studies when I was in primary 4.

In the Chinese lessons, you always taught me patiently. My result improved a lot.

You are a caring teacher. I remembered once you asked me to stay after school to study because my test result was bad. So, I got high marks in the exam. I will be hard-working to prepare for the assessment.

Before I graduate, I will give you a Hello Kitty gift and I will go back to the primary school to visit you in the future. I wish you good health.

Keep in touch!

Yours sincerely,
Jeffrey Jan

A Speech of Global Warming

Yang Jing Yi Mimi 6A

Good morning, everybody. Today, I am going to talk about what global warming is.

First, I would like to talk about what global warming is. Global warming has presented another issue called climate change. It refers to the changes in weather patterns.

Next, I would like to talk about the causes of global warming. People burn fossil fuels. The factories give out black smoke and people cut down trees. Therefore, the temperature becomes higher.

Then, I would like to talk about the effects of global warming. The sea levels are rising. Flooding appeared. The temperature of the ocean becomes warmer. Sea animals are affected and the heat melts the glaciers. The nature and the human beings are suffering.

Finally, I would like to talk about how I can save the environment. I can use fans instead of air-conditioners when it is hot. I bring my own handkerchieves and I can use my own shopping bags. I hope I can do something to help the Earth.

We should follow the 4Rs in our daily lives. That's the end of my presentation. Thank you for your listening.
